TNGIC FALL FORUM SPONSORS

Esri is the global market leader in geographic information systems (GIS) and since 1969 has supported organizations with the most powerful mapping and spatial analytics technology available. Governments at all levels have trusted Esri to make their communities smarter, safer, healthier, sustainable, livable and more prosperous. Visit us at: esri.com/government

Nearmap provides easy, instant access to high resolution aerial imagery, city-scale 3D content, AI data sets, and geospatial tools. Using its own patented camera systems and processing software, Nearmap captures wide-scale urban areas in the United States and Canada, several times

each year, making current content instantly available in the cloud via web app or API integration. Every day, Nearmap helps thousands of users conduct virtual site visits for deep, data-driven insights—enabling informed decisions, streamlined operations and better financial performance.

Driven to create a more interconnected, livable world, **KCI Technologies, Inc.'s** team of technologists and consultants apply knowledge, determination, skill and innovation for the resilience, growth and success of our clients and communities. Our staff of professionals provide a broad spectrum of technical services including business advisory, data & analytics, solutions engineering, and asset management and land management consulting and solutions. Supporting clients across all industries, we drive innovation each day, optimize operations, and incubate new ideas for a better tomorrow.

True North Geographic Technologies is an award-winning GIS services firm in

Murfreesboro, Tennessee, serving federal, state and local governments, utilities, and private sector organizations. True North is focused on creating solutions that help our

customers leverage the Esri platform to meet their current and future business needs. True North delivers successful projects by utilizing our highly skilled staff and over 100 years of collective technical experience with the Esri platform. We excel in working with local GIS staff

to maximize the existing hardware, software, and financial resources that are available while providing guidance and strategies to grow the local GIS programs through budget and new technology planning. We also provide the skills and expertise to integrate other enterprise data systems with GIS.

Woolpert is the premier geospatial firm in the U.S. with an unmatched reputation for performance, quality, and service. We offer an integrated suite of geospatial

services including photogrammetry, remote sensing, mobile mapping, digital and oblique aerial imagery, aerial and ground-based lidar, UAS, surveying, payload integration and testing, and GIS consulting/application development.
